

Deconstructing Next Gen Synagogue of Satan, by Richard Solomon - The Unz Review

John the Revelator recorded some wild imagery from his Aegean island hideout mushroom trip. (At least that's my theory). In his Book of Revelation, he uses the term "Synagogue of Satan," and similar to the Mark Twain "history doesn't repeat but it often rhymes" quote, this biblical archetype/symbol remains constant yet changes as it travels through the epochs. As we enter end-stage capitalism /techno-feudalism, I believe the "Synagogue of Satan (SoS) warrants fresh analysis. With digital wallets, biometric IDs, hand/brain chips, DNA barcodes, and problem-solution bioweapons, this isn't your daddy's Synagogue of Satan.

Revelation 13:16,17: "And he causeth all, both small and great, rich and poor, free and bond, to receive a mark in their right hand, or in their foreheads: And that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name."

When discussing the Synagogue of Satan I cast no aspersions on "good" Jews, "groovy" Jews, "basic bitch" Jews, etc. To differentiate, I'll refer to Jewish adherents of the Synagogue of Satan as "satanic Jews" (spiritual realm) or Rothschild Zionists (secular realm). In Tao, a correct thesis works in both compartments of the yin-yang circle.

Furthermore, I identify as a Jewish Hebrew Israelite (Jew/k!ke) who follows the Tao. Process that data as you see fit. My only qualification for discussing the Bible is I've read it (KJV) and my real and or simulated link to its allegorical or historical peoples. As pointed out by many theological scholars, the Bible (all versions) contains mistranslations and redactions. Tao cleans all that right up. When Black Jesus, White Elijah, and Puerto Rican Ezekiel take the podium, they can lay down the ultimate who's who and what's what.

After Constantine made Christianity the official religion of the Roman Empire, the ruling class-approved church fathers convened the Council of Nicaea, which propelled Christianity from cult status to global religion. Although not its purpose, I surmise Nicaea touched on which books to include in the Christian Bible. This debate continued through subsequent councils, e.g., Carthage, Trent. As per Princeton professor Elaine Pagel's book "The Gnostic Gospels," during the time of the Western Roman Empire, hundreds of competing variations and versions of gospels existed. Some of those texts contained overt Eastern philosophy themes, which is not surprising given that Roman trade-tribute routes penetrated deep into the East and transported ideas as well as goods. My guess is church leaders chose the final "official" texts because they were the least controversial, least contradicted other included texts, and best supported the prevailing social-order narrative. The Book of Revelation stands as a New Testament outlier as it's a book of prophecy with ambiguous symbols and images. I suspect it was allowed in due to its eschatological vibe and ambiguity.

Any discussion of the Synagogue of Satan should define SoS. From my perspective, to John the Revelator, SoS meant the central bank temple money changers and their funded nascent-Talmudic supremacist branches of organized Jewry (e.g., Pharisees) backed by Roman Empire muscle, all of which opposed the Jesus liberation theology movement. When John (likely a Jew, given the early pre-Roman Church was mostly Jewish) wrote Revelation, Rome had

already smashed the temple and sent the Jews into diaspora mode. I don't think those events changed John's meaning of SoS or his view of the key players. During John's time, both diasporic organized Jewry and Rome persecuted the new faith.

If we plug SoS into our modern epoch using the Dr. Carl Jung-Prof. Joseph Campbell time-traveling archetype model, SoS represents the international Jewish financial mafia and its funded branches of organized Jewry (e.g. AIPAC, ADL, Talmudic media) backed by American Empire muscle. Unlike Rome, international Jewry conquered America, which put SoS in charge of all US assets including its security forces, weapons systems, media, education, healthcare, business, technology, and labor. I don't think it's hyperbolic to state that the Synagogue of Satan controls all Western "nations." Most are ruled through buffers, i.e. native traitors who serve the SoS agenda, e.g. Germany, Sweden. The unique three, Ukraine, apostate-Israel, and the US, practice direct SoS governance, i.e., Rothschild Zionists occupy the seats of power in full public view. US-Israel and its vassals are merged into a military-financial ponzi conglomerate known as the US Anglo-Zionist Empire.

If a Synagogue of Satan exists, what about an SoS subsidiary "Church of Satan?" Not to offend Christians, but the Catholic church is currently headed by a WEF toad, managed by a gay Vatican mafia, partnered with Rothschild bankers, and in complete alignment with the Davos Great Reset. The mainstream Protestant denominations can be divided into spiritually-mummified woke mRNA "liberals" and mega-church Christian Zionists who support apostate-Israel to the point of pushing for WW3 so Scotty can Rapture-beam them to heaven when "Mushroom Cloud" Jesus returns. For the record, I'm referring to Western mainstream Christianity as a collective, not individual adherents. Nor do I include the Eastern Orthodox Church or non-SoS sects and branches of the Church body, especially Christian Hebrew Israelites and Pentecostal snake

handlers who demonstrate their faith through “Billy Jack” snake handling rather than support for apostate-Israel.

The Gospels, written anywhere from 40-150 or so years after the death of Jesus, offer no first-hand account of his teachings. Viewing the Jesus allegories through a Thomas Jefferson empirical lens (Jefferson wrote a rationalist revision of the Gospels), we can extrapolate the following:

Jesus a) opposed Temple central bankers, b) opposed organized Jewry (Pharisees), c) opposed empire (pre-70 AD Roman occupational forces backed organized Jewry), d) ran a peace-centric national socialistic anti-poverty program, e) believed in God / Cosmic Intelligence. From my viewpoint, Father Charles Coughlin represented a rare example of a church leader running a temporal application of the “Christ” program.

In the spiritual realm, Christianity represents salvation through Jesus Christ. The Taoist interpretation of that would be plugging the Jesus archetype into the Tao interface to portal into Cosmic Intelligence. I won’t delve deeper into Christian doctrine (e.g., the nature of the Trinity) as my knowledge is limited and Christians can’t agree on that stuff. The Council of Chalcedon convened to form a general consensus, yet birthed the cracks of the East-West schism. Even in Revelation, John rails against competing Christian sects.

Before exiting church-talk, I think the emerging new Christian Nationalism warrants discussion. Unlike older Christian (Zionist) Nationalism, it’s anti-Zionist/anti-Jew. It would be dumb for the SoS not to co-opt and harness the energy of both Zionist and anti-Zionist Christian Nationalists via the beta-wave dream machine. The Rainbow Flag psyop is losing steam, and the U.S. rainbow-dreamer-college tuition army lacks the esprit de corps to take on China’s PLA. The MIC/Pentagon needs young patriotic Christian men filled with the zeal of the Lord to fight the “godless heathen Chicoms.” Super-Jesus capitalism

eliminates Medicare, social security, food stamps, labor rights, and all other “commie-Jew socialist programs” to help fund the holy war.

No doubt, legit Christian Nationalists exist, and as long as their interests don’t conflict with mine, I wish them well. However, as Baudrillard pointed out- everything becomes a simulation of a simulation in high-tech end-stage empire. Amazon can trade in their rainbow flag for the Cross and Goldman Sachs can rename itself Golden Saxon. As long as the Federal Reserve-MIC-Deep State triad remains intact, no matter which shade of lipstick the US Whore of Pimp Babylon wears. “Rich man-poor man” totalitarianism remains the cornerstone of the temple until empire collapse.

Positive change through the democratic process is no longer possible as “liberal democracy” is deader than a fentanyl morgue case. The owners bribed and blackmailed the Western political class past the point of no return. This coincides with the ending cycle of Western dominance, which took off after the Treaty of Westphalia and the propagation of global capitalization backed by advanced European military technology. Big projects require big money. First came the “City of Amsterdam,” then the “City of London,” then the “City of New York.” US Anglo-Zionism represents the final phase of Western muscle/Rothschild money planetary dominion. You are living the Oswald Spengler prophecy.

The great battle is not the West versus Rothschild Zionism. The West is Rothschild Zionism. The great battle is China versus Rothschild Zionism. While international Jewry needed the West, especially the White man’s technology, it also feared White populist backlash, and in its paranoia, sped the decline of Western civilization with the quid pro quo expectation of relocating corporate headquarters to the “City of Shanghai.” China never forgot the Sassoon-British East India Century of Humiliation. So here we are. Today Ukraine, tomorrow Taiwan. The West suffers from cognitive dissonance schizophrenia whereby it

destroys itself while playing world subjugation machine. That's not sustainable, and thus SoS needs a new host. Hence WW3.

**“Honey, after I popped that lude,
the last thing I remember is a
Vietnamese boy, a gerbil, & a
Mossad guy with a camcorder.”**

The Synagogue of Satan's global financial mafia head holds the power to create global-agreement money symbols and debt slavery. Neutralize the SoS brain and its funded tentacles wither and die. Basic b!tch thinking focuses on Rothschild Zionist “culture wars,” e.g. pornography, trans bathrooms, antifa-flag burning. While culture wars impact the collective psyche, in our modern epoch, every digital transmission and turn of the gear represents a financial transaction. Whoever controls that system rules the world.

Muammar Gaddafi used nationalized oil profits to provide Lybians with subsidized food, housing, education, and energy, and planned to construct an unprecedented underground freshwater aquifer system. Gaddafi also understood that breaking free of Jewish global mafia debt slavery was the key to true nation-state independence. Gaddafi's greatest crime against the West was his plan to create a gold-backed pan-African financial system free from Wall

Street interference. Libya sitting atop a sea of sweet crude added one more reason for ZioCorp to kill him.

BRICS took over where the Gadaffi plan ended. Can it succeed? I don't know. The pro is that it presents a much more powerful bloc than Gaddafi's. The con is that some of the nations entering or applying for BRICS membership are Rothschild Zionist-owned and operated, which opens the BRICS protective cell wall membrane to financial mafia pathogenic infiltration and sabotage. Whether BRICS turns out to be a long path or incremental step toward a post-scarcity Star Trek resource economy remains to be seen. Whatever happens with BRICS, barring total global system collapse, China and its strategic alliances (Russia, Iran) offer the best bet for unshackling humanity from Rothschild Zionist debt slavery.

If humanity survives the violent collapse of the US Anglo-Zionist Empire, in addition to non-theater Nuremberg 2.0 trials for the Jewish global financial mafia and their associates, I recommend a thousand-year ban of Jews from finance. Beyond the obvious planetary benefit, it would save many innocent Jewish lives. I'd let Jews into meritocratic academic economics, as a smart Jew professor might figure out a shortcut to a Star Trek economy.

Perhaps the biggest SoS threat to humanity stems from the US Anglo-Zionist Empire's nuclear arsenal, particularly in relation to apostate-Israel and the "Samson Option." I've noticed a growing number of conspiracy theorists* (*I know it's a CIA-created term, but no offense) who claim that nuclear weapons don't exist and that all 1945 and beyond atomic blast film footage portrays giant conventional bomb explosions. I respectfully disagree. Look at the Japanese radiation sickness/cancer/birth defects experienced post-Little Boy/Fat Man. Or the radiation sickness/cancer suffered by navy personnel and islanders following the Bikini Atoll tests as per John Pilger's [documentary](#). Furthermore, we have nuclear power plants and their mishaps (Three Mile Island, Chernobyl,

Fukushima). Scientists generate nuclear power, so why couldn't they use the same technology to make a bomb? If atomic weapons are fake, that means all nuclear powers (US, Russia, China, India, Pakistan, N. Korea, etc) are in on the scam and the Cuban Missile Crisis was staged.

If you take the position nuclear weapons are real, then not only must the world contend with apostate-Israel's 200+ nukes, but given the relationship between apostate-Israel and dementia case Biden's Rothschild Zionist cabinet, I think it highly probable that Mossad has access and control over the nuclear football codes and by extension America's entire nuclear arsenal. While I don't think the Rothschild-Rockefeller bank cartel wants global nuclear war, off-script randy Mossad agents or IDF generals could detonate an "ISIS" shipping container nuke or fire origin-camouflaged nuclear warheads from their German-donated Dolphin subs.

Revelation says: "And I beheld when he had opened the sixth seal, and, lo, there was a great earthquake; and the sun became black as sackcloth of hair, and the moon became as blood; and the stars of heaven fell unto the earth."

On the atomic Armageddon upside, standing ground zero in a 100 million degrees Celsius fireball represents the ultimate Zen Buddhist cremation ceremony.

Sidenote: When run through Tao, Revelation contains a secret off-switch.

Up until the recent Gaza genocide/ethnic cleansing program, "The Holocaust Industry" played a vital role in SoS criminality via reparations extortion, post-1948 apostate-Israel expansion, and protective cover for organized Jewry's crimes. Whether you believe 6 million Jews were turned into lampshades and shipped to Walmart or one Jew died choking on a chicken bone- it no longer matters. The live broadcast slow-motion Gaza genocide/ethnic cleansing used

up the “Holocaust” card’s last remaining sympathy credits. Outside of its censorship value, the card is worthless.

Removing organized Jewry from the equation, as pointed out by American philosopher/mail bomb killer Ted Kaczynski, technocracy poses an existential threat to humans and opens the specter of unprecedented global slavery. Super-advanced technology offers the ruling class absolute power, and as Lord Acton said, “Absolute power corrupts absolutely.” If SoS downloads its consciousness into the AI Beast machine, anticipate maximum GMO epsilon worm-man tunneling and culling.

“Fun fact- the US Postal Service ordered 276 million sq. feet of bubble wrap to deliver COVID-19 test kits to the American public. That’s enough bubble wrap to circle the globe more than twice.”*

As sometimes happens, Cosmic Intelligence speaks through Hollywood screenwriters. In “The Ten Commandments,” the Golden Calf represents international Jewish global finance. Dathan (Edward G. Robinson) represents the Talmudic mind-control media. After Moses (Charlton Heston) hurls the tablets at them, Yahweh cleans up the Hebrew car which represents the modern Jew car as well as other relevant cars.

I notice a lot of Yahweh bashing lately. I follow the Tao of the Bill of Rights, so I support anyone's right to say anything about anything. I'm so free speech, I'm ok with "shouting fire in a crowded theater." However, if you find yourself in the presence of American Hebrew Israelites (Black, White, Puerto Rican, Christian, etc), I recommend toning down the Yahweh blaspheming. It's like walking into a biker bar and calling the patrons f@gs. While that technically falls under Constitutionally protected speech, that protection falls short when the men in the yellow hazmat suits collect the pieces of what used to be you so the scientists can put you back together.

Yahweh started as a Canaanite war god or analogous ass-kicker. Possibly influenced by Egyptian pharaoh Akhenaten's monotheistic reign, the Hebrews dropped the other gods and made Yahweh their one and only. As per Dr. Carl Jung-Prof Joseph Campbell archotyping, when you remove the wrapper, the "god of war" is the "god of war"- defender of the people. Yahweh is Thor is Mars. That's why I get along with Vikings. I know their program. I even know the "Kingdom of Valhalla on Earth" program.

For those who mock Yahweh, I can only say that If you're not running a "god of war" program, please consider an alternate version. The owners declared war on you. They want to destroy you. Like the Geto Boys said: "Some might say take a chill B. But f*ck that sh!t. There's a n!gg@ trying to kill me."

As we jet to the apogee of "End Times" peak evil, who better than the satanic Jew to represent the epoch? From my viewpoint, only by running the Yahweh and Christ programs through the Tao interface to portal into Cosmic Intelligence can you defeat the Synagogue of Satan. For extra juice, add the "Yabba Dabba Doo" program.

Jews got kicked out of 109 countries, yet the international Jewish financial mafia remains stronger than ever. Little Jews have human karma. Satanic Jews have the karma of cockroaches. That is their strength and their weakness. The host-parasite-expulsion program is part of a business model that incorporates little Jew destruction to generate wind for Rothschild Zionist sails. Final destination, an unassailable high-tech “Kingdom of Hell on Earth” program managed by transhuman satanists with heightened abilities who rule over genetically weakened lower castes whose primary function entails experimentation and torture entertainment, all of which leads to conjuring up the Devil through AI exponential evolution technology. Or they’ll burn down the joint. I lean towards the latter.

Financial slavery aside, The Jews’ greatest talent rests in their ability to create metaphysical paradigms, e.g., Jesus-ism (via the Paul/Saul of Tarsus program), Marxism, Free Marketism, $E=MC^2$ ism, Freudism. That ability can be used for good or bad. The post-Talmudic Jews who come out the other side of the tribulation into the Aquarian Age will be super groovy. You’re going to love them

(if you're alive). Like talented endomorph Jewess Mama Cass sang, "There's a new world coming." One way or another.
